Action points:

1. After reviewing the results of First Semester of AY2023-24, it is emphasized the need for conducting more tutorials, assignment tests and remedial classes in numerical problem/concept-oriented courses in Second year to improve the performance of the students.
2. After reviewing the CO attainment of all the courses, the committee identified the Course Outcomes, which are leading to low attainment in that course and asked the course coordinators to strengthen the Teaching Learning Process on those topics by adopting the innovation teaching methods, Project/problem-based teaching, Peer learning methods.
3. The committee recommended conducting more technical workshops, Project/program-based learning programs, aptitude, communication skills development programs, placement training programs and Entrepreneur awareness programs for the benefit of students.

Chairman, PAC thanked all the members for attending the meeting and the meeting is concluded at 3:00 pm.
